Technical Bulletin 928 S4 7 Subject: Seat Heating Operation Part Identifier Number 7276 8801

The function of the Seat Heating System on seats with memory differs from seats without memory. The table below describes these differences.

Seat Heating	without Seat M	with lemory
Switching on (Ignition on)	Push upper part of seat switch	
Heating	Approx. 15 min. continuous operation	Approx. 6 min. continuous operation, then interval heating 20 sec. on, 40 sec. off, 20 sec. on, etc.
Switching off manual	Push lower part of seat switch	
Switching off automatic	After approx. 15 min. via time relay or switch off ignition	Switch off ignition

Both versions of seat heating could be found on one car if one seat has memory and the other seat does not have memory.

Important Notice

PCNA Technical Bulletins are intended for use by professional technicians, not a "Do-it-yourselfer." They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Special tools may be required to perform certain operations identified in these bulletins. Use of tools and procedures other than those recommended in these bulletins may be detrimental to the safe operation of your vehicle. Properly trained technicians have the equipment, tools, safety instructions and know-how to do a job properly and safely. If a condition is described, do not assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your Porsche Dealer for information on whether your vehicle may benefit from the information. Part numbers listed in these bulletins are for reference only. Always check with your authorized Porsche dealer to verify correct part numbers.
