6

Subject: Adjustable Sliding Roof
Wind Deflector

Part Identifier
6033

Number
8804

The sliding roof wind deflector angle is adjustable with two screws (Figure 1) to minimize wind noise.

From production date: January 1987
New wind deflector part number:
928 564 023 03

For basic adjustment an angle gauge can be fabricated out of cardboard, wood, or similar material according to attached templates (Figure 2). Align gauge as shown in Figure 3.

Final adjustment can differ from basic adjustment because of body and installation tolerances.

Important Notice

PCNA Technical Bulletins are intended for use by professional technicians, not a "Do-it-yourselfer." They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Special tools may be required to perform certain operations identified in these bulletins. Use of tools and procedures other than those recommended in these bulletins may be detrimental to the safe operation of your vehicle. Properly trained technicians have the equipment, tools, safety instructions and know-how to do a job properly and safely. If a condition is described, do not assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your Porsche Dealer for information on whether your vehicle may benefit from the information. Part numbers listed in these bulletins are for reference only. Always check with your authorized Porsche dealer to verify correct part numbers.
